

The Federal Communications Commission

Dear The Federal Communications Commission,

alot of people in my area are on a fixed income and cannot afford another increase on anything. if increased some will not have away to call for help when it's needed. we pay a fee to have 911. if this increase is passed well, the purpose for most getting this extra will be in vain. please lets stop making the USA so impossible. simplicity is peaceful.

sincerely yours, tina wallace CPhT

Sincerely,

tina wallace
